A.C.T. **SOFTENER**

Description:

A.C.T. SOFTENER is a fabric softener and conditioner offering many advantages for commercial and industrial laundries. **A.C.T. SOFTENER** makes clothing and fabrics soft and fluffy. It reduces static charge on fabric and will minimize "cling" and shake out time. **A.C.T. SOFTENER** reduces extraction or drying time and increases production rate. Treated fabric has less tendency to develop mildew or odor. **A.C.T. SOFTENER** is excellent for diapers, blankets, clothes, linen, etc.

Use Directions:

1. Use 1 to 3 ounces per 100 lbs. dry weight for commercial work. Add to last water and run five minutes.
2. In smaller machines use one tablespoon per 25 lbs. or 1 teaspoon per home type washer in last rinse water.
3. Do not exceed recommended wash concentration.

Excessively high concentrations will decrease fabric absorbancy.
